WITH MARKET SALES

Face the Storm; Local Quotations.

The widespread snowstorm kept down activity on commission row Thursday. Sturgeon appeared on the market and was retailing at the rate of 175c a pound. California smelts have dropped from 20c to 175c a pound, and lobsters are now entirely off the market.

Quotations follow:

CHICAGO, March 5.—The wheat market was nervous the greater part of the day and the volume of trade was large.
During the first half hour the market was inclined to be firm, owing to liberal purchases by commission houses. Pit traders in general, however, were disposed to favor the selling side of the market on the theory that a further decline was due in view of a probable increase in primary receipts in the near future. A forecast of continued liberal shipments from Argentina also tended to weaken the market. For the greater part of the last half sentiment was decidedly bearish and prices were forced down about 14 from the high point. A sharp rally occurred just before the close was firm. May opened 4 404 to 8 604, higher, at 301/2009. The come was firm, May opened 4 404 to 8 604, higher, at 301/2009. The corn market was strong all day, being influenced chiefly by unsettled weather in the corn belt, which will probably interfere with the movement of the corp. Commission houses and bull leaders were active bidders all day and all though at times there was considerable profit-taking adequate of \$600.

There was only a small trade in oats and the market in general was a triffe easier. Continued liberal receipts had a depressing effect. May opened at higher, at 5340.

Provisions were firm on buying by shorts. The principal selling was by some of the larger packers. At the close May pork was up 10c, at \$11.92‡ Lard was up 5c, at \$775. Ribs were 72c higher, at \$85.70.

DR. C. W.

THE MICROSCOPIC SPECIALIST

Is the only Scientific Specialist in Sall Lake City using the interescope to form his diagnosis. He will tell each and every one of you just what your disease is, without any information from you, he will tell you all about your disease better then you can tell it yourself. By the use of the MICROSCOPE we can detect Calcut, Cancerous Matter, Carbonate of Lime, Albumen and all extraneous substances mixed with the Urino or Blood This is the scientific principle of treating Chronic Diseases and Privato Diseases. Just call and see for yourselves.

thorough personal examination, together with an above you re-and if your case is incurable we will plainly tell you so. We attribute our s-cess to promising nothing but what we can do and always doing what
